

Hungry Kids International

Betty King, President

Street / Small Town Missions Equipment

The Church, Iglesia Pacto de Paz has an outreach program that preaches the Gospel in neighborhoods near the Church. The team uses simple sound equipment and a borrowed gasoline generator. The team will combine preaching of the Gospel with distribution of basic commodities, such as beans and rice that are essential to the diet of the local people.

People gather to see what the group with a sound system is about. They stay and hear about Jesus, then receive bags of food to take home.

We need to extend this work with the capacity to project gospel films, such as the Jesus film as part of this outreach. This use of DVDs to preach opens the opportunity for young people who have grown up in this ministry to gain experience in evangelism.

We have obtained some cost estimates from another ministry. The search for vendors, configuration, and final cost is under way. We have enlisted the help of Gary King of Fast Break Video in California to help us configure and buy the equipment. We will publish news as the project develops.

Projector	\$2,800.00
DVD Player	\$250.00
DVD Disks	\$100.00
Generator	\$550.00
Sound System	\$350.00
Light Bulbs / Maintenance	\$350.00
Misc. Costs: Table, Screen, Cords, Cables, ect.	\$400.00
Total estimated cost for one team:	\$4,800.00

Once we have a fully equipped team, we can begin to broaden our evangelistic reach, even as far as the Gomez Palacio region where our fourth children's home is located. Brother Elias has started a Church in the area and needs some help in evangelizing the area.
